

'The harder the battle , the sweeter the victory'

My time in ST ANN'S has not always been as a leader, rather I , was a quiet Child until one day I decided I loved sports. My love of sports has come to me from my teachers and my father who has taken me to various sporting events. My teachers on the other hand nurtured me and directed me into the right sports. They trained me and gave me the opportunity to compete in sporting events. The faculty of this school has been absolutely encouraging and supporting towards sports . And my teachers were like a guiding light. They have shown me the right path in various challenging situations . I truly believe that a ,teacher is not the one with a stick and serious face, rather a person with smiling face and encouraging words!

I am very happy to say that our school has won 32 medals in this academic year of 2016-17 in various sports such as: kho – kho , relay, high Jump , hurdles , triple jump etc. I do really hope that my promise to make our school the BEST in sports has been fulfilled . Although sports is not the only criteria which our school , my ALMA MATER has encouraged. I am extremely proud to say that ST ANN'S educates its protégés in every sphere including cultural activities , academics etc . I have experienced this in a personal way. As all good things come to an end my 12 years of schooling have successfully Passed by with the flap of a humming bird's wing !! To go out of school and face the world is going to be tough, but with the confidence that my alma mater has given I'm ready to face any situation .

I would like to thank Rev.sr. Felicita , our sports teacher Mrs. Rajini, and all my dear teachers . It was a great pleasure working with the Cabinet members. Last but not the least I would like to thank my dear ANNITES for their cooperation and everlasting support .

I would like to conclude with a message,

'BE LIKE A POSTAGE STAMP. STICK TO ONE THING UNTIL YOU GET THERE!'
